

HAMARA MENTOR — FOR INSTITUTES

Bundle job-ready mentoring into the course you already sell

Add a weekly, mentor-led session to your own programme — no separate fee for your students, no separate marketing for you. It sits inside the fee you already charge, and gives every admissions conversation one more reason to close.

Helps close admissions

"Includes weekly mentoring from working industry professionals" is a line a counsellor can say on a call that a rate card cannot.

No extra fee, no separate sale

Students never see a second invoice. Our share comes out of the fee you already collect, agreed with you, not billed to them.

One slot, every week

A single weekly online class for the whole batch. Your timetable absorbs it once and it repeats for the term.

What we handle

- A mentor panel matched to your programme's trade or sector
- The weekly session itself, hosted and run end to end
- Attendance records you can use in your own reporting
- A completion record for each student at the end of term
- One coordinator — one relationship, not one per mentor

No placement is promised or implied, by us or by any mentor.

How it runs

- 1. Tell us about your programme** — What you sell, monthly intake, and the trade or sector.
- 2. Agree the share** — One call: sector pack, term length, our share of your existing fee.
- 3. We run the class** — Weekly online session for your batch, fixed time, for the term.
- 4. Students get a record** — A completion record per student at the end of term.

What the weekly session covers

What the weekly session covers — workplace readiness and professional behaviour, a walkthrough of real tasks from the trade with a working mentor, structured question time on the gap between classroom and job, and a closing session on what the first few months on the job look like. *This is a thematic outline, confirmed against your programme when we scope the cohort — not a fixed module list.*

Price

No separate fee for your students. Our share of your existing programme fee is agreed per institute, on a call.

Format

One weekly online session, Thursdays 4:00pm, for the length of your term.

In association with **MEPSC** — the Management & Entrepreneurship and Professional Skills Council, a Sector Skill Council under the Ministry of Skill Development & Entrepreneurship — and aligned to **Skill India**. Hamara Mentor is an initiative of UGrowth Consultancy.
